

КОСМІЧНІ МІСІЇ ЄВРОПЕЙСЬКОГО КОСМІЧНОГО АГЕНТСТВА

Європейське космічне агентство (ЄКА) засноване в 1975 р. Нині воно залишає ресурси 20 держав Європи для виконання наукових програм космічних дослідень, спостережень Землі, навігації, телекомунікації і астрономії з допомогою автоматичних і пілотованих космічних місій. В наведених нижче таблицях подано інформацію про автоматичні космічні місії ЄКА, а також про участь європейських країн у виконанні пілотованих космічних програм.
